

We believe that Hawai'i's milk
should come from Hawai'i.

- Hawai'i Dairy Farms is committed to providing fresh, nutritious milk that's affordable for local families – produced on Kaua'i for Hawai'i.
- Located in Maha'ulepu, the farm will be Hawai'i's first grass-fed dairy. It will be unlike any previous dairy farm in the islands, utilizing a method that is better for the cows and the environment.
- Hawai'i Dairy Farms is dedicated to producing wholesome milk for our friends and families. We also look forward to helping Hawai'i become more sustainable, provide local jobs for local people, and keep milk prices affordable.

Hawai'i Dairy Farms

MAHA'ULEPU, KAUAI

Grass farmers with a passion for dairy.
